

FUNDING AVAILABLE FOR ENVIRONMENTAL RESEARCH AND DEVELOPMENT

ALEXANDRIA, VA, November 7, 2013—The Department of Defense's (DoD) **Strategic Environmental Research and Development Program (SERDP)** is seeking to fund environmental research and development in the **Resource Conservation and Climate Change** program area. SERDP invests across the broad spectrum of basic and applied research, as well as advanced technology development. The development and application of innovative environmental technologies will reduce the costs, environmental risks, and time required to resolve environmental problems while, at the same time, enhancing and sustaining military readiness.

The Resource Conservation and Climate Change program area supports the development of the science, technologies, and methods needed to manage DoD's installation infrastructure in a sustainable way. SERDP is requesting proposals that respond to the following focused Statements of Need (SON) in **Resource Conservation and Climate Change**:

- **New Paradigms for Managing Species and Ecosystems in a Non-Stationary World**
- **Adapting to Changes in the Hydrologic Cycle under Non-Stationary Climate Conditions**

Proposals responding to the Fiscal Year (FY) 2015 SONs will be selected through a competitive process. **All pre-proposals are due to SERDP by Thursday, January 9, 2014.** The SONs and detailed instructions are available on the SERDP web site at www.serdp-estcp.org/Funding-Opportunities/SERDP-Solicitations.
